Johnson Requests Udall To Aid Local District With Line

Congressman Harold T. (Bizz) Johnson of the 2nd, mountain-valley counties, district has called on the secretary of interior to study the feasibility of constructing a transmission line to serve the Truckee Public Utility District.

In a letter to Secretary of Interior Stewart L. Udall, Congressman Johnson pointed out the Truckee Public Utility District, as a preference agency, could receive bureau of reclamation power from the Trinity River project when powerhouses there come on the line.

The principal difficulty arises in getting the power to the district from bureau transmission lines. Congressman Johnson wrote:

"Representatives of the district advise me that your contract for transmission and exchange service, commonly called wheeling, with Pacific Gas and Electric Company, may not provide for wheeling to Truckee, at least in the opinion of the company. I am most anxious to learn whether this is true.

"Truckee Public Utility District is a preference customer under the definitions in the federal reclamation law. It presently operates electric facilities for which power is purchased wholesale from a private utility at an average cost of about 13 mills. I am informed that at these prices the district has great difficulty in making adequate provision to serve the area of the district. Central Valley power would cost less than half as much.

"If it is true that there is presently no method of having the power wheeled to the district under present arrangements, I believe that your department should conduct an investigation into the feasibility of constructing its own transmission line from a connection with its present facilities, perhaps in the vicinity of Folsom, out along Highway 40 to the Truckee area, which could serve other existing and potential preference customers en route. The benefits of low cost public power from the Central Valley Project should not be arbitrarily circumscribed by the lack of necessary transmission. Your early attention to this matter will be appreciated."

Shell Takes Stand On Squaw Dispute

"I am not willing to crucify fine business interests for political advantage."

Thus Assemblyman Joseph C. Shell, candidate for the Republican nomination for California's governorship took his stand on the controversial Squaw Valley issue, an issue which is threatening to damage business throughout this region.

In a telegram to Robert Calais, president of the Far West Ski Association, Shell said:

"As a member of the legislature I voted for development on Squaw Valley for the Olympic Games site as a non-partisan activity good for California. If contract irregularities are present, they should be solved by regular methods and not attacked as an emotional political issue.

"I am aware that business people in the area have cooperated in making this a major tourist attraction. I want to see it continue as a mecca for tour-

Plans Outlined To Dedicate Donner Museum This Fall

The first step in preparing for the dedication of the new Emigrant Trail Museum at Donner Memorial State Park on September 8 and 9, was taken here Monday with the initial meeting of the committee from the Truckee Donner Chamber of Commerce which will sponsor and program the ceremonies.

While other organizations will be asked to participate in the event, the local chamber will coordinate its efforts with the division of beaches and parks to schedule events during the two days.

Tentative plans call for at least one parade in which organizations from all over the state will be invited to participate for trophies, a street dance, bands, speeches, perhaps an historical play and other features.

One of the outstanding parts of the program will be the arrival of the Truckee Donner Horsemen's Association wagon train following a trek from Nevada. Other horsemen's groups are also expected to participate.

The California Conference of Historical Societies, the Clampers, Nevada County Historical Society and other similar groups will assist in providing one of the most impressive ceremonies ever held here.

N. F. Dolley, chamber manager, presided at the meeting in Smart's Monday and others attending included Mel Whitaker of Stockton, beaches and parks official, Jack Stowe, local park superintendent, Richard Higgins, Francis Longo, F. W. Wilson, Walter Barrett, Cecil Edmunds and Mrs. Robert Tonini.

Two of the five suspects in the armed robbery of the Gateway Motel April 24 during which the manager, Mrs. Roxie Archie, was threatened and $103 in cash was stolen, are in jail at Nevada City and an all-points bulletin is out for the apprehension of three others.

Jailed as participants in the robbery were Ronald Creasly, 19, and Donald Gene Hartley, 19, both of Loyalton, who, according to local deputies, have admitted being the owner and driver of the get-away car.

Two of the men sought are brothers, one said to be a parole violator from Wisconsin.

The two suspects were arrested Monday night by Deputies Preston Patnoude and Leo Zander, through the cooperation of Sergeant Sam Doyle of the Sierra sheriff's office, Sergeant Roy Waters reported.

Airport Delayed By Labor Dispute

The completion of the first phase of construction at the Truckee Tahoe Airport is being held up by the laborers strike in Northern California, Chairman Jack Houlgate of the Tahoe Truckee Airport Commission reported this week.

Contractor Carl J. Woods of Yuba City, who closed down work on November 20 of last year on account of inclement weather conditions, moved his equipment down the valley where he has been working on another job. He had completed approximately 80 per cent of the contract work at the airport before closing down for the winter.

Woods was advised by the district's engineers to begin work on May 1, Houlgate said, but before he could get his equipment on the way, the laborers struck and his men have refused to cross the picket line.

The district expects to call for bids for the second phase of the work within the next few days. This work calls for additional base rock, extending the runway another 1,000 feet, widen the same to 100 feet, and asphalt topping the entire runway, taxiway and parking pad.

It was hoped to have the airport open to traffic in July, continued Houlgate, but if the strike continues much longer, it may delay the opening until later in the year.

Jensen, Stewart Offer Accepted For Golf Course

Jack E. Jensen, former Boston Red Sox star, now living at Crystal Bay, and Alex Stewart of Bijou, announced Tuesday, following acceptance of their offer to lease with an option to purchase the Truckee golf course from the Truckee Public Utility District, that they will start immediately to improve the facility.

The board of directors unanimously accepted the Jensen-Stewart bid with the lease to become effective May 15 for a three year period at which time the partners have an option to purchase the 40-acre course and facilities for $160,000, the $10,000 annual lease payments plus five per cent of the net profits to apply on the purchase price.

The offer was one of three submitted. The others were from C. E. Osburn of Truckee who offered $100,000 to be paid in ten annual payments, and from Pat J. O'Melia of Whittier whose bid was to lease the property for five years at $4,000 a year with an option to buy for $127,500.

Under terms of the lease, Jensen and Stewart will maintain the facility as a public golf course, will pay all expenses in its operation and will be permitted to improve and develop the area for recreational and other lawful purposes.

The initial improvement, Jensen declared, will be the surfacing of the parking lot and entrance to the course. It is also planned to erect a caretaker's cottage and expand the clubhouse.

The partners also declared that it is their intent to change the name of the course to the Ponderosa Golf Course.

Other major development and promotional plans are being considered, Jensen declared, for the purpose of making the Ponderosa course one of the most popular in the state, including the possibility of bringing the Jack Jensen Invitation Meet to Truckee.

The Jensen-Stewart team was introduced to the attractive new course by Carson White of the Swanson Realty Company and while no commissions were paid in the transaction, White was anxious to have the widely-known couple secure the property.

The course was constructed last year through volunteer labor, largely by members of the Shadow Valley Country Club, and by $125,000 expended by the utility district. It is located a mile south of Truckee on the Brockway shortcut and is adjacent to the new Tahoe-Truckee Airport.

Jensen retired from major league baseball last year after being twice voted American League player of the year. Prior to that he was an All-American football player with the University of California. He is married to the former Zo Ann Olson, Olympic swimming champion, and with their children they reside at Crystal Bay.

Stewart has a long background as country club manager and currently is associated with Harrah's at South Tahoe. Both men are widely and favorably known throughout the country.

Tentatively, at least, green fees have been set at $4 with a family membership at $100 for the season. It was also indicated that Orf DeLuca will be retained in his position as pro for the course.

DIVOT-DIGGERS

By BETTY KIELHOFER

Newly-installed President Bob Moore conducted his first meeting Monday evening with the ease of an old 'pro.' There really wasn't too much that could be planned as just about every idea present involved the club-house and golf course. As most of you know, a proposed sale of the course is planned and until we know who the new owner may be, we just have to sit tight.

Everyone is in hopes that whoever gets it will promote it to the fullest and will allow our club to function as in the past. We are all most eager to get behind them and help in every way possible. There was a general discussion about when the course might be open for play and we're in hopes it will be this weekend, even if not on a full scale basis. Cliff Ellis reported that it is in good shape and all he has to do is put out the flags and markers. Some of us played Feather River golf course Sunday and what a nice little course that is. If you haven't played there yet, you should by all means. It's one of the loveliest settings I've seen.

ROUND TOWN—have you noticed what Charlie and Pearl Heller are doing to the old home they purchased on West Main St.? When they have finished, they will have restored it to one of the nicest homes in central Truckee. Just shows you what can be done with a little planning. I believe they've started something . . . I see new porches, shiny new paint jobs and general renovations going on all around. With a little imagination, a house can be likened to a person. Whe the owners take pride in it, you can almost see it slowly begin to lift its sagging shoulers, stick out its chest and the sad old eyes start to sparkle and dance.

I haven't been out but heard that the Lauren Russells have been clearing and preparing their lot in Donner Trail Estates for a brand new home. They have one of the prettiest lots in the subdivision.

Cheers and Flowers — to the T.V.F.D. for the newly completed room above the fire house. Bob Leamon finished laying the tile floor since our last meeting there and it just looks terrific. This is probably one of the most necessary additions to our fair city in many a moon. We now have a swell place to meet with kitchen facilities and a most convenient location, all for a small donation to help defray expenses. Run up to see it the first chance you get.

DONNER DOINGS

By VIRGINIA O'BEAR

The fishing reports have been very good for Donner Lake. Sunday you could hardly see the lake for all the fishing boats out. Coming down off the summit many wondered what all of those little specks were until they got here and saw the boats. A lot of fish were taken out Sunday because we saw them and they were beauties. I had a real nice one on but just as I got him up to the boat . . . he got away. Oh well, better luck next time.

Bob Wilkerson from the Power Cat Boat Company has been spending a few days at Donner this week with his little 1400 black and white demonstrator. Watch for the Power Cat on Donner and come on out for a ride at the O'Bears. We have the dealership for them.

the most important moments...
The time Mother spends washing, sewing, cleaning and cooking . . . the hours she spends doing all the things a modern homemaker does for her family are vital to their health and comfort. Even more important are the things she does with her family.
Today, most of the things Mother does for her family are done more quickly and with less effort on her part than ever before. Using modern appliances and the always-ready power of electricity, Mother now has more time to spend with her family . . . it's the most valuable time in the world.

For Better Electrical Service

Your Directors of the Truckee Public Utility District are faced with a developing problem — that of extending and improving the electric department and at the same time maintain the present low rates.

Costs of providing service in the District have multiplied during recent years and the need for expansion in a fast-growing community are apparent.

In order to maintain present rates, it becomes necessary to discontinue cash discounts on bills, a policy which will go into effect July 1, 1962. This will not offset the rising costs of service, but will go a long way in eliminating losses by the District, and at the same time assist materially in improving and expanding electric services.

It is the desire of your Directors that the discontinuance of the discout be a temporary measure and that it can be resumed as soon as feasible.

The genius of John. The pros and cons are flying fast and furiously since John and Jeanette Palmer's Riviera Resort Clothes Shop opened in Kings Beach Saturday. The champagne opening, the models showing the latest fashions in bathing suits, play clothes and dresses but the novel new floor covering was the topic of the day. SAND! Got the idea in Mexico, John says, and besides it will eliminate waxing and polishing. Too it should keep the young fry occupied while their elders are trying and looking at the latest creations. How about buckets and shovels and those straw chickens and sunflowers?

SUMMIT SCENE

By FRAN COUILLARD

Hello again. Truth is I didn't have anything to tell you. These "in between" seasons are like a sandwich with no filling therein. Nothing can be more drab than two slices of slightly stale bread with no stuffin'.

As I write this, the Soda Springs Ski Hill grinds its ski lift motors to a screeching halt—and that's it for the 1961-62 ski season. Even the skiers look tired—those last hangers on that are the real skiing devotees. Not for them the horse back bouncing; not for them the tame water ski; not for them the exerting flaying of arms and legs in a limpid pool; not for them the rod and gun. Nothing for these last leather skinned skiers except slat and snow.

With quivering lips they sorrowfully clamp their skis on their cars and turn their backs on the slopes of the Sierra. They cannot bear to look at the tears of snow as the dirty packs weep into stream and lake. They cannot countenance the clean, shiny granite boulders as they break surface and grin at the sun.

Nor can they stay to watch the winter bent lodge pole as it regains its height — throwing the monkey from its back,—popping up with the snappiness of a buck private's first salute. They abhor the green of our short spring. They hate the contortions of our wild flowers as they wriggle and twist through granite crevice.

They detest the luscious green of pine needle as it sprays its spring aroma into the smog free Sierra air. They cover their eyes with a nauseous loathing at the widening cracks in Lake Van Norden as the tears of the snow push gently upward and force the winter frosting into the Yuba River which churns it mightily before accepting it in the spring runoff.

They view with alarm the lanes that emerge from their winter lids —these latter meaning that shortly the back country will be open to traffic other than snow shoe and ski. They shudder as the first boats are towed over their highway toward waters that bear on their backs such a disgusting sight as sails and outboards. With the regal backturning of a Liz they have repudiated completely a season known as spring.

These, Lord Bless 'em, are not enough to make a sandwich filling —but they are our first heralds of the bubble bath season — and are, regretfully, floated away with the tears of a winter goodbye.

* * *

Party time. Dale Mason, our "bouncy" waitress (who walks on springs as she waits on her customers) celebrates a birthday. "Wall to wall birthday cakes" for Dale. First her "coming out" party at her own establishment (which is Soda Springs Lodge)—then a follow up at Donner Summit Lodge where she formerly held forth.

All of the ski enthusiasts didn't go to the ski instructors convention at Mammoth because we had the whole darned ski patrol for an Easter eve banquet, 50 strong.

Easter morning we had Soda Springs umptieth anuual Easter breakfast for our Donner Trail school kids. And whilst the little ones nibbled away at their scrambled eggs and sausage — their mamas searched for a place without snow where they could hide the Easter eggs. (Don't think I am giving away anything here — because most of our kids up here don't believe that snow shoe rabbits lay Easter eggs anyway).

And it proved to be Mike's day. Know little Michael Allyn? He of a few teeth missing? A solemn little boy tanned from a winter of snow reflection, an intense little boy who brooks no foolishness. Well, Mike discovered the beautiful golden egg that gave him first prize of a bunny that was bigger than he. And then to top it off Mike went to the Easter hat parade on the Soda Springs Ski Hill—which always follows our Easter party—and copped first there, too —with Easter hat his Mom (Marion) dreamed up. Big hat—Easter basket on top—and two hanging from the brim a la earrings. And a sign that read "I didn't put all of my eggs in one basket." Yep—it was Mikes' day.

We note by the clock that "dead line" time is near.

We will close by saying that we havent given up on the Stephens Pass deal—and we heartily approve of Jim Sherrit's "Donner Freeway." And the next article will serve to prove that we haven't given up.

Fanatic Fran.

DONNER DOINGS

(Continued from Page 2)

weeks before it arrives as they wanted special things and special colors so we are anxious to see it, too.

* * *

The Robert Jang family moved back to Donner Lake this week after a busy winter at their Soda Springs restaurant. We will all be happy when they get their market opened again and get settled so Bobbie can get in some fishing. She loves to fish and is quite successful in the lake as well as the streams.

* * *

The Auxiliary of the Donner Lake Volunteer Fire Department will meet next Thursday night, May 17 at 7:30. Hostesses for the meeting are Jerie Bonano, Nancy Brodie, (the whistlers) and Laura Horman. Members notified by phone as to place. Why not attend and take a new neighbor? There are lots of new people moving in now waiting to go to work on construction and this is a good way for them to meet everyone.

* * *

Ray Austin, Andy Rankin and Ray Hardin stopped by this week and all of these fellows are anxious to get back to work. They can't help it about the strike and want to get going on this construction job on Highway 40. Earl and Ruby Lewis are here now, too. They moved back last week. Well, they will get rolling soon, we hope.

Letter to the Editor

The following is an open letter to Richard M. Nixon regarding his recent blast at Governor Brown regarding the Squaw Valley issue:

Dear Mr. Nixon:

With great interest I read your statement of April 30, calling "mismanagement" of Squaw Valley State Park "one of the fishiest messes of the Brown administration."

If this is one of the fishiest messes, after acquainting yourself with the true facts, you will have — with this statement — complimented Governor Brown's administration with being a very clean one.

Your statement, no doubt, has been based on a recent legislative report which, in my opinion and that of many people of this area who are well acquainted with the true facts, has been presented in a biased and irresponsible manner.

When this report speaks of a financial loss to the State, its completely omits the fact that due to the creation of a State Park in Squaw Valley, business in this entire area has benefited to such a great extent that the State — in sales taxes, gasoline taxes, etc.— has from the very beginning of the existence of the Squaw Valley State Park been more than compensated for the so-called loss.

As for the concessionaire contract which was awarded to Mr. William Newsom sometimes called a political plum — frankly, as a business man, I wouldn't want to be burdened with it.

All this completely one-sided election year propaganda is doing is hurting private enterprise in very many ways in this area, preventing private parties from making further substantial capital investment in the area and depriving the State from additional income.

All of us who are in business in this area would welcome a public hearing in the entire matter so that the true facts can be prepresented to the people rather than one-sided facts which are being used by some individuals for their own political gains.

Very truly yours,
Herbert Kahn,
Tahoe City.

MARTY RIECK HEADS SOROPTIMIST CLUB FOR COMING TERM

TAHOE CITY — Marty Rieck, vice president of the Soroptimist Club of Lake Tahoe, was elected president, at the Soroptimist Club luncheon, on Tuesday at the Crystal Bay Club.

Serving with Mrs. Rieck for the year 1962-1963 will be Ellen Sklar, vice president; Barbara Spitsen, treasurer; Helen Beaverson, recording secretary; Helen Turchet, corresponding secretary; Peggy Hulbert, delegate; Dorothy Kornstien, director. Maggie Stollery, junior past president, will continue to serve on the board of directors. Ruth Burris served as nominating chairman, and conducted the elections.

Helen Beaverson gave a detailed report on the recent regional conference in Santa Rosa, which pre ference in Santa Rosa, which precedes the Soroptimist bi-ennium convention in San Francisco in July. She was accompanied to the conference by Louise Scoville and delegate Barbara Siptsen.

Vacationing Soroptimists Ellen Sklar and Mildred Mathias, have returned to the area following extended holidays, Mildred, by-laws chairman, received a letter of commendation for her revisions of the by-laws from the regional by-laws chairman. She conducted many committee meetings during the revision period, and was doubly complimented by the unanimous acceptance from the club membership.

The annual Soroptimist Club Scholarship luncheon will be conducted by Scholarship Chairman Mickey Mandeville. Aspirants from the Tahoe Truckee High School will be interviewed. Each aspirant will give a five minute speech to present her upper division educational plans, the membership will vote on the candidate who will best qualify for the Soroptimist Scholarship by her outstanding academic achievements plus her prowess in student activities. Varian Frey of Truckee, received last year's scholarship award.

The "Soroptimist Thrift Shop" which was inaugurated in Tahoe City last February, will open in Kings Beach today. This venture in Kings Beach is expected to far exceed the popularity enjoyed by the shop in Tahoe City. Hot coffee will again be served to all who drop in, and a daily door prize will be awarded at the end of each day. Hours will be from 10 a. m. until 4 p. m.

ERROL KEHM IS WED TO LINCOLN GIRL

Mr. and Mrs. Errol Conrad Kehm of Sacramento visited here recently with his grandparents, Mr. and Mrs. O. Giovannoni en route to their home, from a honeymoon spent in Los Angeles.

The bridegroom is the son of Mr. and Mrs. Arthur Kehm of Sacramento and former local residents. The new Mrs. Kehm is the daughter of Mr. and Mrs. James Heaton of Lincoln, the former Marlene Joyce Heaton.

The religious nuptials took place April 28 in the St. Philomene's Church and a reception followed the ceremony at Anson's in the capital city.

SHELL

ists and for Califorina residents. "I am not willing to crucify fine business interests for political advantage."

Shell's message to the association, meeting in convention in San Francisco, regarded current political controversy raging among other candidates over alleged irregularities at the Squaw Valley recreation area.

Many ski enthusiasts and sports groups, as well as local business interests, have expressed concern that political disputes might curtail or suspend full public use of the popular recreational facility.

In the meantime, William A. Newsom, president of the Squaw Valley Improvement Association, declared last week that charges made by Richard M. Nixon concerning the valley are false and baseless and issued a three page reply and offered to sell his interests in Squaw Valley to Nixon for $1, if Nixon assumes the losses.

Nixon had charged that the Newsom contract with the state is one of the "fishiest messes" of the administration of Governor Edmund G. Brown.

"This is a bona fide offer," Newsome declared. "I'll take a profit of $1 and get out. My Squaw Valley lease, contrary to Nixon's irrational claim, has not yielded 1 per cent of profit in the two years of operation. It will continue to lose money for the next ten years or longer. I can't stand the financial loss. Maybe Nixon can.'
